

Terms of acceptance roofing

Waste from roofs that contain ruberoid (both tar and tar-free roofing material).

Permitted:

Roofing material (ruberoid, bituminous waterproofing and materials containing bitumen).

Minimum quantities permitted:

Materials stuck to the roofing materials such as insulation material, wood, polyester, stone and other construction materials.

Not permitted:

- × Hazardous waste
- × Asbestos and asbestos-containing materials
- × Preserved wood (sleepers, garden timber, etc.)
- × Organic waste
- × Household waste
- × Construction and demolition waste
- × Other waste substances such as household waste, paper, wood, vegetable waste, etc.
